**Specimen**

SARS-CoV-2 RNA

**Latest results**

**20-Aug-20**

**08:15**

**2078881828**

**Nasopharyngeal swab**

Reference

Units

Not detected

**Interpretation.**

Failure to detect virus specific nucleic acid does not always exclude SARS-CoV-2. Repeat testing including a sputum sample if available, may be indicated if clinical suspicion is high.

This assay is designed to detect the E gene of SARS-CoV-2, the causative agent of COVID-19 using nucleic acid amplification. On occasions, a second assay targeting the N gene is also utilised.

For further requires regarding these results, please contact the Medical Virologist on (07) 5454 0387.

Testing for SARS-CoV-2 is notifiable on request irrespective of test results.
